

# IMPORTANT CONSTRUCTION UPDATE!!!

November 3, 2017

There are some massive changes coming to Shasta starting next week. This is a necessary step in the construction process for our new buildings and expanded parking lot. More than ever before, we will have to be calm, patient, and courteous.

The crossed out area above will be closed to all cars and pedestrians.

All of the curbs in the parking lot will be designated as fire lanes – cars should never be left unattended unless they are parked in a designated parking space.

The handicapped spots will be relocated.

The main entrance to the campus will be the breezeway next to the MPR/Cafeteria.

The south side of Leora will be designated as loading/unloading only.

A crosswalk will be installed across Leora to the overflow parking lot.

Weather-resistant paths will be installed at the DeGarmo gates so students/parents don't have to walk in the muddy field.

The exit from the main parking lot will be right turn only = cars can travel to the dead-end on Leora and turn back toward the Esplanade.

Bus drop-off and pick-up is relocated to the Esplanade. **NO PARENT DROP-OFF OR PICK-UP WILL BE PERMITTED ON THE ESPLANDE.**
